Attention: [REDACTED]
Contracting Officer

STATINTL

Reference: Contract No. [REDACTED] STATINTL

Gentlemen:

We are pleased to enclose three (3) copies of the above-referenced contract, which we have executed subject to the changes and/or additions requested below:

1. We request that the portion of Article 5, paragraph (c) which reads,

There shall be withheld from payment on each invoice or voucher an amount of ten percent (10%) of the cost reimbursement portion until a reserve of either ten percent (10%) of the cost of this contract or [REDACTED] whichever is less, shall have been set aside, such reserve or balance thereof to be retained until the Contractor shall have furnished to the Contracting Officer

be amended to read as follows:

After payment of eighty-five percent (85%) of the fixed fee set forth in the Schedule, as STATINTL from time to time amended, further payment on account of the fixed fee shall be withheld until a reserve of either (i) fifteen percent (15%) of the total fixed fee or (ii) [REDACTED] whichever amount is less, shall have been set aside, such reserve or the balance thereof to be retained until the Contractor shall have furnished to the Contracting Officer.

STATINTL

2. Certain of the Subject Data to be delivered on the referenced contract will incorporate discoveries, inventions, and improvements made by [REDACTED] at its own expense. Therefore, we request that features of the equipment listed below, and all concepts related thereto, be identified in the Contract Schedule as proprietary to [REDACTED]

STATINTL

- 2.1 Equipment and techniques of decoding, storing, programming, readout controlling, coordinate measuring, and projection as utilized in [REDACTED]

STATINTL

- 2.2 Equipment and techniques of counting, storing, programming, and readout controlling as utilized in [REDACTED] Large Area Record Readers, Terrain Data Translators, Digital Scales, and High Precision Readers, Model A.

STATINTL

- 2.3 Servo systems and servo techniques as utilized in [REDACTED] Electroplotters.

STATINTL

- 2.4 Automation features utilized in converting IBM Electric Typewriters into [REDACTED]

NTL

We wish to point out that the electronic null indicator, described in the Contract Schedule, Item I, paragraph 4, will not necessarily be as accurate as the measuring system described in paragraph 3. Our design goal for the accuracy of the electronic null indicator will be ± 12.5 microns.

The foregoing was discussed verbally on February 6, 1959, with your Messrs. [REDACTED]

STATINTL

We wish to express our appreciation for the award of this contract and trust that the minor changes outlined above are acceptable.

Sincerely,

TINTL

VICE PRESIDENT
